AmbiCom Signs OEM Agreement With Greater Intell

MILPITAS, CA--(Marketwired - Dec 9, 2014) - AmbiCom Holdings, Inc. (OTCQB: [ABHI](#)), today announced that they have entered in to a non-exclusive relationship with Greater Intell whereby their Veloxum optimization solution will be sold under the giOptimum brand.

giOptimum, powered by Veloxum, automatically evaluates and adjusts server and workstation settings to improve performance and capacity of existing systems. giOptimum automates the time consuming task of troubleshooting configuration issues, freeing up technical staff to deal with more pressing issues. giOptimum uses the vendor supplied configuration settings and does not add any additional hardware or software into the data stream. giOptimum offers a "single pane of glass" to coordinate all managed service actions, now including continuous optimization.

According to Research and Markets, the MSP marketplace is expected to grow from \$142.8 billion in 2013 to \$256.1 billion in 2018, a 12.4% CAGR. There are roughly 25,000 MSP's of all sizes operating within this marketplace. The largest MSP platform for remote management is the Kaseya VSA.

Global Server Virtualization market is expected to grow at a CAGR of 31.07% from 2012 to 2016, and VMware accounts for 56% of the virtualization market (TechNavio). One of the key factors contributing to this market growth is the need for better productivity of enterprise servers. The Global Server Virtualization market has also been witnessing the reduced downtime of end-user systems.

About Veloxum Tuning Solutions

Veloxum actively and continuously optimizes physical and virtual infrastructure by optimizing operating system and application settings. It leverages the existing systems and infrastructure by tuning the various components within their manufacturer supported settings. The solution enables IT organizations to maximize performance, increase workload density, and minimize virtualization costs, ultimately spending less on the physical infrastructure, thus dramatically reducing CAPEX and OPEX expenditure.

Customers such as Watermark Industries, Baron Funds, Colgate Palmolive, Integrated Axis, Deutsche Bank, the United States Department of Energy, and Maimonides Medical Center are enjoying significant cost savings with Veloxum. Veloxum was founded in September, 2007 and was awarded the Gartner "Cool Vendor" award in 2012 in the category of infrastructure management.

About AmbiCom Holdings, Inc.

AmbiCom is headquartered in Milpitas, California, and is a leading designer and developer of innovative wireless hardware and tuning software products targeting the healthcare market and optimizing complex IT environments with more than one million devices sold worldwide. AmbiCom purchases standard wireless products and designs and develops features and packaging to customize these products to its target OEM markets, including a new SDIO card to be sold to its OEM customers.
