splashtop Business

Mobilize your workforce with Splashtop Business. Increase productivity and response time with smooth, secure access to all your company's applications, files and data.

Now your workforce can easily access all their business applications and data anywhere, anytime, from any device

A high performance 3D/HD experience

Now all types of business professionals can enjoy a truly interactive and intuitive experience with Splashtop's superior remote application and desktop access. Use your existing applications on a mobile device without retraining your users or re-engineering applications. Splashtop Business is capable of delivering 3D graphics, HD video, and other apps that were previously impossible to use on tablets.

BYOD Freedom

You can support a company-wide BYOD initiative with a single universal solution. Mobile users can enjoy all the benefits of working with their existing applications as if they were working in front of their computers.

Secure solution hosted on Splashtop servers

All sessions are fully encrypted using AES/SSL-256 bit. Hosted on secure servers in the cloud, Splashtop Business enables you to increase user productivity without sacrificing security.

Cost effective and simple to set up in 10 minutes

There are no network or server changes. All you'll need is our Splashtop Streamer and apps to set up a remote connection. Then use the simple web-based Admin Console to centrally manage users.

Who Benefits?

- **IT staff** - easily setup, manage and secure connections between mobile devices and desktops.
- **Business owners** - ensure company data is protected while keeping mobile employees productive.
- **Field/sales reps** - access company's internal systems or view the latest sales presentations and training materials.
- **Managers** - ensure teams remain productive when away from their desks.
- **Teachers** - access PC or Mac from anywhere in the classroom.

Get up and running in 4 easy steps

Admin Setup

1. Sign up online for a free trial account.

2. Create and invite users.

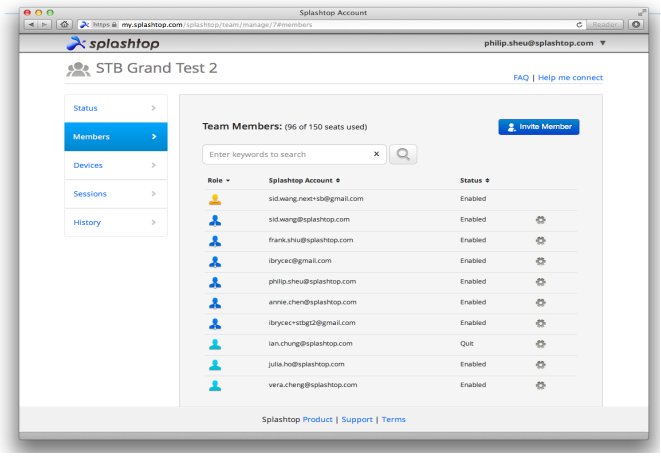
User Setup

3. Install the Splashtop Business app on mobile devices (users download from device's app store). Download Windows or Mac clients from Splashtop website.

4. Install Splashtop Streamer on each computer to be accessed. Users log in and connect to their desktop!

Benefits include:

- **Easy to set-up** – No need to add any extra servers – just sign up, create users and go!
- **Easy to use** - Intuitive gestures and menu interface delivers a native application experience including support for multiple displays.
- **High Performance** - Patent pending streaming technology - including 3D graphics, HD video and synchronized audio - delivers an engaging user experience.
- **Connect from anywhere** - Intelligent optimization techniques provide reliable connections even when connected over lower bandwidth 3G and 4G connections.
- **Secure connections** - With support for SSL/AES 256 bit encryption you can be assured that your sessions are safe.
- **Increase user productivity** - Customizable shortcuts allow easy access to application features using transparent overlays. Whiteboard allows users to annotate over content.



The Web-based console allows you to activate and track users from the convenience of your browser.
